

Nurit® 8000 Wireless Terminal

1SOURCE

POWERED BY FIRST DATA
SUPERIOR SOLUTIONS. INFINITE POSSIBILITIES.™

We understand you run a serious business and deserve the same access to credit and debit card authorization at the Point-of-Sale (POS) as other retail and restaurant businesses.

Why should you take the risk of higher credit card fraud and chargebacks just because you run a business in a non-traditional location and may not have access to phone lines and electrical outlets? We don't think you should.

SOLUTIONS SHEET

NURIT® 8000 Wireless Terminal

Flexibility to accept credit, purchasing and debit cards nationwide anytime, anywhere

WITH THE NURIT 8000 WIRELESS TERMINAL, YOU CAN:

- REDUCE CREDIT CARD FRAUD & CHARGEBACKS.
- OBTAIN CREDIT CARD/DEBIT CARD AUTHORIZATION IN SECONDS
- RECEIVE CARD PRESENT RATES WITHOUT A PHONE LINE CONNECTION.
- CONDUCT BUSINESS WHERE PHONE LINES DON'T EXIST

STATE-OF-THE-ART, USER-FRIENDLY WIRELESS TERMINAL

- Built-in high speed 12.5 lines-per-second thermal printer
- Wireless modem accessing the CingularSM Mobitex network and dial back-up
- Average transaction speed is 15-20 seconds
- High quality backlit keyboard and large LCD display for easy reading – day or night
- Built-in pinpad for PIN-secure debit transactions
- "Store N Forward" capability provides offline capture and upload of transactions in low or no coverage areas
- Meets demanding Visa[®] PIN entry devices (PED) and MasterCard[®] security requirements

NO PHONE LINE? NO PROBLEM.

Wireless capability allows you to authorize credit card purchases virtually anywhere the Cingular Wireless Mobitex provides coverage. You no longer will depend on the availability of phone lines or electrical outlets. The built-in rechargeable, replaceable lithium ion battery will last approximately 12 hours or 150 to 200 transactions.

THE NURIT 8000 IS PERFECT FOR:
