Troubleshooting Q&A

The Frequency shows “One Time” on the Create Child Support Payment screen. Why can’t I set up a recurring?

• A Pay Date is required for each Non-Custodial Parent. This date could be different from the effective date selected or could change with each payment; therefore, recurring payments are not available. However, you can initiate the same payment again from the ACH Payment Activity Page and edit any fields needed.

The Add Recipients/Review/Confirm button(s) cannot be selected?

• Verify that all required fields are completed. These button(s) will not display if any required fields are missing. Required fields are indicated by a red asterisk.

How do I search for only Child Support Payments in ACH Payment Activity?

• On the ACH Payment Activity Page, select Search ACH Payment Activity. Under the ACH Type dropdown, select Child Support then Search.
